TEA: WHAT'S HOT AND WHAT'S NOT?

Exploring what the future looks like for tea, and the biggest innovations and disruptions that are changing the retail landscape and shaping consumer preference.

Session1

THE VALUE OF TEA: ACHIEVING THE RIGHT PRICE FOR QUALITY

Refocusing the price determinants of tea: differentiating tea to improve perceptions of consumers, present and future, and move product excellence up the value chain.

Session2

EQUITABLY PASSING THE RIGHT PRICE DOWN THE VALUE CHAIN: FAIR PRICE AS A GLOBAL CHALLENGE

Reiterating the compelling reasons for equitable distribution and exploring the groundbreaking practices that can share opportunity down the value chain.

Session3

CLIMATE CHANGE: MOVING THE CRISIS UP THE AGENDA

A fresh focus on climate change and the breakthrough practices and climate smart thinking that may hold the key to a sustainable future.

Session4

TEA... A LIVELIHOOD? CRAFTING A BETTER FUTURE FOR THE PEOPLE OF TEA

An introspection into the legacy of tea and the transformative practices that are brewing better futures for the consumer and the people of tea.

Session5

TECH AND TEA: AN UNORTHODOX PAIRING FOR A PROMISING FUTURE

Learning from the innovations and advances that are transforming lives and creating new possibilities for tea from crop to cup.
