

During the post pandemic period, Sri Lanka Tourism intends to engage prospective travelers through "live streaming programs" by sharing and engaging content of our many attractions and resources.

The objective of the initiative is for travellers to engage with brand "Sri Lanka" virtually and have a positive experience that would keep Sri Lanka as their "must travel" destination once the borders open for visitors.

Accordingly, Sri Lanka Tourism will commence by showcasing our rich flora and fauna through virtual tours of Minneriya, Kaudulla, Udawalawe and Yala National Park.

The virtual tours titled "Go on a Couch Safari" will showcase Sri Lanka wildlife to the world through the wildlife streaming programme starting from 4th November to 13th November 2020.

The streaming website - www.srilanka.travel/wildlife streaming. No Registration Fee.
